

## **ENHANCE STUDENTS FROM POOR FAMILIES TO HAVE SCHOOL MATERIALS**

Through account of education program, learners from poor families are assisted to have school materials, enhancing them to attend their studies smoothly. It is not only to support learners for school materials but also to be advocated to make sure that they are studying on same pace with other learners without special issues. This approach support in preventing school dropouts because some obstacles associated with financial assistance, are abolished. It is an outstanding approach used to curb a great number of Rwandan youths leaving schools due to lack of financial ability to maintain their studies.
